NFT - Detailed Test Plan						
			S.No	Project Overview	NFT Test Approach	
			1	The Plasma Donation Application would help Donors, as well as patients in need of plasma. It would allow you to search for Plasma Donors within your city and having a specific Blood Group. People who have fully recovered from COVID-19 have antibodies in their plasma that can attack the virus. This convalescent plasma is being evaluated as a treatment for patients with serious or immediately life-threatening COVID-19 infections, or those judged by a healthcare provider to be at high risk of progression to severe or life-threatening disease. This application can be considered as a contribution of its developers towards the medical unit of the country as well as towards humanity.	Load Test
